EDUCATION

Forte Institute Of Technology	Meerut, U.P. , India
MBA	*2023*

TECHNICAL SKILLS

Languages & Frameworks: ReactJS, Redux, HTML, CSS, JS, Tailwind CSS, Bootstrap and Material UI
Developer Tools: Git & Github and VS Code.

PROJECTS

Food Restaurant App | *React Js*

- **Developed a Dynamic Food Ordering Web App** using React.js, enabling users to browse food categories like Indian, Italian, Chinese, and French cuisine, and place orders through interactive forms.
- **Implemented Responsive UI Components** such as navigation bars, carousels, and food selection buttons with CSS and FontAwesome integration to enhance user experience across various devices.
- **Implemented Responsive UI Components** in React components, allowing users to select food items and view updated images with smooth animation effects.**Created Custom Forms for Order Submission**, capturing user data like name, address, and order details, and handling form state using React's useState for seamless data management.

Ecommerce Website | *React JS, Redux , API & Tailwind CSS*

- **Developed a Full-Stack E-Commerce Application** using React.js and React Router, enabling dynamic navigation between pages such as Home, Shop, Cart, Checkout, and Order Confirmation.
- **Integrated Redux for State Management** in handling user interactions like product searches, cart updates, and order processing, optimizing app performance and state persistence.
- **Implemented Modal and Form Components** for user authentication (Login/Signup) and checkout process, enhancing user experience with interactive, responsive, and secure UI elements.

Dribbble Clone | *React JS, Tailwind CSS*

- **Designed and Implemented Responsive UI Components** for landing and footer sections using React and TailwindCSS.
- **Created Dynamic and Animated Elements** using CSS transitions and custom animations for enhanced user interaction.
- **Integrated Social Media Icons** and Navigation menus, ensuring seamless scalability across different screen sizes.

Entry Dashboard | *React JS, Redux , API*

- Developed a responsive ReactJS dashboard with Redux Toolkit and RTK Query, handling CRUD operations on user data, integrating dynamic modals for form inputs, and ensuring seamless state management.
- Designed and implemented UI components using TailwindCSS, enhancing user experience with interactive user cards, modal forms for adding and editing data, and efficient API integration using reqres.in.

Uifry Clone | *React JS*

- **Integrated Dynamic Features** such as animations, icons, and buttons for improved user experience, ensuring consistent design and performance across devices.
- **Collaborated on UX design**, implementing features like customizable content, notifications, and user testimonials, enhancing user engagement and app appeal.

Calculator, Create Notes, Age Calculator, Number Guessing Game & Amazon Clone
— HTML, CSS, JavaScript

- Each project demonstrates proficiency in web development, including front-end design, user interaction, and application functionality.
- The projects involved creating an appealing UI and ensuring a smooth browsing experience for users.
